WHAT IS ECONOMY?

An article to be truly economical is one that gives the greatest satisfaction for the least ultimate expense. In the case of eyewear and especially sunglasses the necessity of buying from a reliable distributor is obvious. Irresponsible dealers sell a great quantity of blown glass spectacles which are rarely completely plain; it is these that cause headaches and in more extreme cases—eye diseases.

### SOURCE OF ILLICIT WHITE DRUGS

#### Intelligence Bureau Revelations

Cairo, May 20.

The fact is now beyond dispute that the world source of illicit white drugs is China, north of the Great Wall, and some distance south of it.

These areas are under direct or indirect Japanese control, says Colonel Russell in the annual report of the Central Narcotics Intelligence Bureau.

The report adds that the chief market for this Chinese heroin is America by way of the Suez Canal and recommends tighter control of the Suez Canal zone in close co-operation with Egypt.

Britain and America demand that

the world "will not be poisoned solely and entirely for the monetary profit of a mob of international rascals living under the protection of political chaos in the Far East."

### Half Of Mining Town Destroyed

Manila, May 20.

Half the mining town of Paracale in Province Camarines Norte was destroyed by fire this morning according to advices reaching the Manila offices of a number of mining companies.

It is understood that at least 2,000 inhabitants are homeless but the mines do not appear to have been affected.

The Red Cross this afternoon rushed a plane to Paracale to organise relief for the sufferers.

### ROYAL PARTY INSPECTS WARSHIP VICTORY

#### SOUVENIRS FOR QUEEN AND PRINCESS

London, May 20.

A million people are estimated to have gathered at noon at Southsea, Isle of Wight and Stokes Bay to watch the Coronation Naval Review. Thousands slept all night long on the beach and thousands more arrived from daybreak onwards by motor coach and train.

Princess Elizabeth was also an early riser, running about the decks of the Royal yacht Victoria and Albert. At 8 a.m. she was eagerly gazing at the ships and later she was joined by her father who strolled on the quarter deck talking to her. The Princess afterwards walked to the jetty alongside the yacht asking questions about the ships.

The King's official inspection began at 10.30 with Sir Samuel Hoare, members of the Board of the Admiralty, Commanders of the Home and Mediterranean Fleets, Vice-Admirals commanding the Reserve Fleet, senior British and Empire officers, senior officers of foreign warships and representatives of the Merchant Navy and Fishing Fleets aboard the Royal yacht Victoria and Albert.

Indian sailors navigated the barge which brought the Comman-

der of the Indus aboard the Royal yacht.

The King presented silver Coronation Medals to all foreign officers, after which the King, Queen, Princess Elizabeth and the Duke and Duchess of Kent came ashore and inspected the warship Victory.

Before they left the Victory, the Royal party were presented with souvenirs. The Queen and Princess Elizabeth each received a brooch bearing a tiny picture in metal of the Victory. The Queen put her's

in a handbag, but Princess Elizabeth gleefully pinned her's to the lapel of her coat.

Another gift to the Queen was a paper knife bearing a picture of the Victory and the Princess also received a small book giving the history of Nelson's flagship and an account of the Battle of Trafalgar.

On leaving the Victory, the Royal party visited a small building nearby containing a panoramic picture of Trafalgar extending

In this week's edition of "The Hong Kong Weekly Press" which is on sale to-day, there is a comprehensive array of local Coronation celebrations pictures.

### EXPLOSION ON LAUNCH

#### Seven Victims Buried

Police launches were still standing by at Queen's Statue Pier yesterday in connection with the sunken steam launch Dojima Maru.

Since the explosion occurred on Monday night, 31 of the 34 victims have been recovered, most of them Japanese.

The body of another Japanese was found floating in the harbour yesterday morning. A hand, leg, head and several unidentified portions of bodies were also recovered from the harbour in the vicinity of the scene of the disaster.

Ten bodies were recovered on Wednesday, and six were identified at the Public Mortuary. Their funeral was held at the Japanese Crematorium yesterday.

Two of the three bodies still missing are of Chinese members of the crew of the steam launch.

Five Japanese and one Chinese are still in hospital.

Seven hospital patients were taken aboard the Rio de Janeiro Maru on Wednesday afternoon.

A poignant feature of the tragedy is the fact that 31 passengers—practically all women and children—were landed from the Rio de Janeiro Maru before she sailed, and are to be sent back to Japan.

### THE CROWD WAS THERE, WITH A BOUQUET

#### But Japanese Airmen Did Not Land!

News of the expected arrival of the record-breaking Tokyo to London flight plane, "Divine Wind," brought a goodly sprinkling of the local Japanese community out to Kai Tak Air Port yesterday morning, complete with an attractive bouquet of gladitorial, tied with red ribbon, ready for presentation to the heroes, Iinoe and Takagoshi.

The "Divine Wind," which is on a return flight to Tokyo by easy stages, was due to land at Kai Tak at 11.20 a.m. yesterday. By 11.15 a gathering, the majority of whom were Japanese residents filled with enthusiasm at this opportunity to see their national heroes, had assembled. Cameras were displayed by the dozen. The stage was all set.

When a "Daily Press" representative arrived at Kai Tak shortly after 11.30 he was informed that the "Divine Wind" had been expected "ten minutes ago."

After about ten minutes an official of the Air Port came down from his office and announced the disappointing news that the

"Divine Wind" had passed Hong Kong on a flight direct to Formosa. Within five minutes the crowd dispersed. A Japanese gentleman carried the bouquet away. There was a look of disappointment in his face.

So, after all, Hong Kong was denied the pleasure of seeing the "Divine Wind."

### Nanking Tourists Greeted In Kweilin

Kweilin, May 20.

The beauty of Kweilin and the progress in various directions in Kwangsi made a favourable impression on the Nanking tourists who were welcomed here to-day after a motor tour from the capital to Kunning (Yunnanfu) by highway.

Generals Li Tsung-jen and Pei Chung-hai, commander-in-chief and second-in-command respectively of the fifth route army

(Kwangsi provincial forces) personally welcomed the visitors headed by Mr. Chu Min-yi, former secretary general of the Executive Yuan.

The travellers left Nanking three weeks ago in buses and motor cars for Kunning along the highways recently completed, inaugurating for the first time, travelling by motor vehicles over a distance of 1,200 miles.

## BRUTAL TAIPO MURDER

### Case Continued At The Criminal Sessions

The hearing of the case in which Chan Lo, alias Chan Yuk-lam, alias 'Chan Hing', aged 27, (stated to be the adopted nephew of the deceased), Ching Sau Chi, aged 26, kept woman, and Chan Tsan, aged 32, married woman, were alleged to have committed the murder of Tseng Kiu, a widow aged 70 years, at Shun Wan Village in Taiipo district on February 24-25, was continued before Mr. Justice Lindsay, at the Criminal Sessions, yesterday.

Messrs. T. F. Lo, H. C. Macnarmara, and H. Somerset-Fitroy, instructed by Messrs. G. S. Ford, W. C. Hong, and W. Keith Robinson, of Messrs. Wilkinson and Grist, Deacons, and Tso and Hodgson, appeared on behalf of the first, second and third accused respectively.

Man Seung, daughter of third accused was cross-examined by Mr. Lo who asked:

When was the first time you heard that first accused had an aunt?—About a month after they (first and second accused) had moved in to live with us. I can't remember whether it was before or after I learned them by my valuables to pawn. First accused told me that he would be able to return them to me at the end of the year because he expected to get employment in one of the Empress ships.

#### NO MONEY RECEIVED

The conversation you had with second accused before first accused returned; was it a long or short one?—It lasted about half an hour. When first accused returned the conversation was all finished.

I put it to you that first accused did not speak to you about the subject.—I say he did mention about the affairs which happened the previous night.

Did you receive any money from first accused?—No, he only redeemed the articles of jewellery which he pawned for me.

#### REFUSED TO GO

Mr. Macnarmara. Have you got a good memory?—I do not claim to have a good memory. I can only say what I could remember.

You not only kept on allowing them (first and second accused) to owe you bills but also loan them money?—The loan was made before the bills were due. I tried to turn them out many times but they refused to go.

On Wednesday you said that they (first and second accused) stole a ring from you?—Yes.

Second accused was out with you when the ring was being stolen?—Yes.

Then how could she (second accused) have stolen the ring?—No, I only said that first accused stole the ring. First accused was in a habit of stealing things from his wife and when he could not steal anything else from his wife he started to steal things from me.

Now we will come to the time when the three accused were going to Taiipo. You knew of course what their object was?—Yes, to obtain money.

#### MONEY AT ALL COSTS

How?—To obtain money from the aunt.

As far as you knew at that time, they went to obtain money from the aunt by legal or peaceful means?—Yes.

You said in your deposition with regard to what happened at the aunt's house that first and second accused could find no ropes and so a girdle was used to tie up the aunt?—Yes.

Mr. Somerset-Fitroy. First and second accused owed you money?—Yes.

On the 13th first and second accused went to Taiipo with the object of getting money?—Yes.

Mr. Williams. When your mother returned on the morning of the 25th, who opened the door for her?—I did.

And who opened for the second accused?—I am not sure whether I did or my mother.

Could you remember who opened the door for the first accused?—Second accused.

#### INCIDENT RELATED

How long was it after second accused opened the door for first accused that first accused related the conversation of what happened to you?—Just a few moments.

Where did the conversation take place, in the teng or kitchen?—Partly in the teng, and partly in the kitchen.

How long did the conversation in the kitchen between yourself and first accused last?—About ten minutes.

Was second accused there?—Yes. While he (first accused) was relating the story to you in the teng, was second accused present?—Yes.

When you were having the conversation with first accused, you cannot say whether second accused was listening or not, but would she be in a position to hear?—Yes.

#### CASE ADJOURNED

After further evidence was given by Chan Wah-hing, Yip Yuen, Lo Yuen-chung, Chan Sang, Sum Yee-moi, Wong Ying, Chan Ki-moi, Cheung Yuen, Chan Sum, Sgt. Orem, Chan Yau, Sergeant Goodwin, and Flu Yuck-ching, the Crown Case ended and the hearing was adjourned till 10.45 a.m. to-day.

## DUKE OF WINDSOR JOINS MRS. SIMPSON

### Engagement Soon To Be Announced

Shortly before two o'clock on May 4, the Duke of Windsor's car drove through the gates of the Chateau de Cande, where Mrs. Simpson has been staying for the last two months, writes the Tours correspondent of the "Daily Telegraph."

He had travelled 750 miles, by car and train, from Austria in just under 24 hours. The Arlberg express, in which he travelled from Salzburg was stopped for him at Verneuil, near Paris. Then escorted by relays of French mobile guards, he drove for three and a half hours to the chateau.

Only the best, Mr. Bedaux, and Mr. and Mrs. Herman Rogers, friends of Mrs. Simpson, were on the lawn to welcome their Royal guest. Mrs. Simpson remained indoors, and the Duke met her in the blue and gold drawing room of the chateau.

Soon afterwards the party went in to lunch.

#### GUEST AT CHATEAU

At the chateau huge crowds of people had awaited the Duke's arrival. The gates of the chateau were closed and the road leading into the drive was barred by a line of uniformed police, but the enthusiasm of the crowd was so great that the police had some difficulty in keeping the drive free to allow the car to pass through.

The Duke got out of the car just before it reached the chateau.

Then, after pausing a few moments to exchange greetings with his host and friends, he hastily entered the chateau.

He will, I am informed, remain at Chateau de Cande as the guest of Mr. Bedaux for several days. Afterwards he will take over the lease of a small castle in the neighbourhood and will remain there until his marriage. The Royal engagement, I learn, will be officially announced in a few days.

Capt. Greenacre, who has been acting as temporary equerry, informed me this evening that he is returning to London to-night. Mr. Dudley Forward, the Duke's equerry, is expected at the Chateau de Cande to-night.

#### GOOD WISHES FROM EX-SERVICEMEN

The delegate conference of the Association of ex-Servicemen, meeting in London, sent a telegram of good wishes to the Duke of Windsor. The message, addressed to the Chateau de Cande, read:

"We tender to your Royal Highness our warmest wishes for your happiness. We hold many memories of your kindly and practical interest in the problems and difficulties of ex-Servicemen, and ask you to accept our appreciation of that interest and our grateful good will."

The telegram was signed by Mr. J. A. Allan, the president.

## WIDOW "NOT GUILTY"

### Sat On Husband's Chest Until He Died

A verdict of "Not Guilty" was brought in by a jury in Oslo in favour of a plumber's wife, charged with wilfully murdering her husband by sitting on his chest until he died of strangulation.

Olaf Olsen returned home very drunk and threatened to kill his wife, it was stated at the trial. Instead of going to bed, he lay down on the floor.

Hilma Olsen, terrified by his threats, sat down on his chest to prevent him becoming violent. Holding his hands, she sat there for five minutes. She weighs 160 lbs.

Asked what her movements were after that, she said that she got up, drank a bottle of port and went out. When she came back she found him lying on the floor—dead.

Arrested on a charge of murder, she pleaded "not guilty."

During the trial she was asked whether she used to quarrel often with her husband.

"Yes, and I often had to fight him," she replied.

"Who was the stronger?" "He was," said Mrs. Olsen.

The jury brought in a verdict of "Not Guilty."

### "Home Brew" Gets Her In Trouble

A married woman by the name of Chau Yan Tai was brought before Mr. K. Keen at the Central Magistracy yesterday on a charge of being in possession of a still at Cha Ko Liang in Shaikwan, possession of fermenting materials, and distilling spirit without an appropriate licence. She was also charged for being in possession of dutiable spirits.

Revenue Officer Ward who prosecuted, stated that the defendant was seen working the still and was in the company of several men who made good their escape. He

## SHATTERED FACE REBUILT

### Surgeons' Amazing Triumph

Hope came to brighten the corner of a ward in Guy's Hospital, London, recently.

Like a gentle hand lifting the dark veil of suffering and suspense, it gave a glimpse of new life and new beauty to the slim, still figure of 21-year-old Brenda Dawson.

The skilful hands of 20th century surgeons had performed a modern miracle, restoring and remodelling the crushed and mutilated features of this once lovely, carefree girl.

Until a few weeks ago, fair-haired Brenda Dawson laughed, danced and enjoyed life like other girls, her pretty face sparkling with happiness.

On Easter Monday, she left her home at Shoreham, Sussex, to go for a cycle ride along the country roads.

Then came a crash, and she lay senseless in the roadway with terrible injuries to neck, skull, cheek-bones, and nose. Her mouth and teeth were shattered.

#### SILVER WIRES

For days she lay in a critical condition in Worthing Hospital.

As soon as she could be moved, she was taken on an ambulance to Guy's Hospital, to lie in a suspense more agonising even than her physical suffering, waiting to see if modern surgery could rebuild her tortured face and give her back something of her lost beauty.

Now that suspense is eased. Silver wires hold her remoulded face together. Operations have been performed. The surgeons are pleased with her progress. She can hope again.

was not pressing the case and would be satisfied with a nominal fine. His Worship imposed a sentence of eight weeks' hard labour on the four charges, or a fine of \$108.

ONE of the most pleasing things about 'MANSION' is the quickness with which it gives such a brilliant polish. ## Smart And Practical Clothes

In addition to the glamorous beauties of the season's fashions there are plenty of practical style, writes a Home correspondent. For the younger woman the favourite clothes seem to be those wearable on all sorts of occasions—day and evening. Suits and ensembles are of tailored trend and the "chic" is to be simple.

### WITH NAVY BLUE

Shoes, gloves, cravat, scarf and hat must be considered. With the dark-blue dress a note of variety can be struck by having a yellow, or red, coloured jacket to alternate with the matching navy. Care must be observed, however, in keeping the accessories as separate affairs. Navy-blue shoes, hand-bag and gloves could be worn with either coat.

Hats are gay, and with the neat navy ensemble all sorts of mixed straws, nets and ribbons can bring in a riot of colour.

Another favourite old-time alliance with navy is white. White gloves are a smart choice, and a white cravat or blouse is good. There are many lovely white hats this season. A tiny coarse straw sailor in white, with navy net pipings and veil, should be a perfect completion to navy-and-white suit.

For warmer days there are the striped silk suits, cut very short and very trim. Skirts of these thin fabric are generally pleated, and fit well over the hips.

### TAILORED LACE SHIRTS

Plain tailored coloured lace shirts are smarter with the silk suit than the fussy blouse.

Little floral printed silk frocks, somewhat on the dark side, have charming neck finishes often of light broderie-Anglais. All sorts and styles of jackets can be worn, and a posy of flowers may correspond with a very gay hat. Sashes in several shades tie in the front.

For lunch, cocktail-time, and at several informal parties, nothing surpasses the new, nearly high-neck, half-sleeved, ankle-length model in black crepe-faille, or dull satin.

## NEW SUMMER SHADES

The neat black suit which is always considered so suitable for everyday wear during the winter is not so much in evidence just now, various shades of blue and grey having taken its place.

A light shade called Academy grey is popular for suits and gowns, and a deeper tint, "smoke blue," is also to the fore at the moment. With grey, there are certain blue tones which blend well; so does red, and all the pink tints. One of the most attractive alliances of all is that of grey and yellow, provided the latter tone is in the pale primrose or banana, rather than the strong lemon.

The blues permit of almost endless scheme. Burnese and Belvedere blue are two good shades, rather dull and therefore excellent backgrounds for such splashes of colour as gold, green, orange, and rose. Any one of these colours is good also for dark blouses, jumpers, or waistcoats to wear with the really dark blues.

## Fashion Says

—that leather accessories are the smartest to wear with floral suits. A handbag, gloves, and a flower buttonhole give a suit a Bond Street look.

—suits must be two colours. A linen skirt with a plain coat picking out the predominating colour of the linen, is good. —that swathed bodices are Paris's latest idea to give an attractive front to a frock. One designer has created a frock in slate blue silk —with a swathed bodice—with a cherry sash—and a large monogram on one shoulder.

—the accessories are very important. Look out for "acorns" used as a brooch, earrings, and a clip; a transparent belt; with "hanging" in a contrasting colour in front.

## PARIS FASHIONS

### Sports And Evening Dresses

At the Paris Horse Show many sports ensembles were worn, writes a correspondent in the "Times." Tailored jackets and skirts are right with three-quarter coats of a darker colour. Printed dresses of silk are in fashion and woollen coats to go with them are lined with the same silk. Tailored dresses of light woollen materials are put with coats and jackets of brighter colours. Pale blue coats of three-quarter length are worn with navy blue frocks, and with a dress of light beige a yellow jacket makes a good contrast.

At a recent reception the hostess wore a long dress of real black lace. The skirt is finely pleated, the bodice, which has long sleeves, is cut in deep points at the back and in front, and there is a foundation of pale pink chiffon. Tailored ensembles in tulle or petersham were worn by the guests and many hats had veils. Tulle or lace veils hang behind simple straw hats; they may pass under the chin, or be twisted round the throat like scarves. Coloured veils are in fashion and the different nets of which they are made are similar in design to those worn 30 years ago.

Turbans are right for the afternoon. Suzy makes them of black satin with ribbons of two, bright colours. Red and green, or violet and red, are colour contrasts which can be worn with black. These ribbons are twisted round the head to be drawn out and fringed at the back of the head.

### BLACK AND NAVY

Black and navy-blue are the colours most worn at tea-time. A navy-blue dress can have a simple round neck, which is opened in front, and a narrow band of white plaid down the front of the bodice and skirt. With this dress two rows of pearls, fitting close to the throat, are worn. A corsage of big pearls is an ornament which can be worn with a plain black dress. Some afternoon dresses have a hem bound with lighter colours. A red binding is gay on a black dress, and white or pale blue are the correct contrasts for navy-blue.

Chanel has some new evening dresses. They have closely fitted bodices and full skirts which clear the floor. Many yards of material are needed for these graceful skirts of tulle, chiffon, lace and organdie. A white organdie dress embroidered with black flowers has broad shoulder bands and long black ribbons falling from the waist behind. Wide tulle ribbons are mounted vertically upon the chiffon skirt of a black dress. It is worn with a fine veil over the head. Silver stars spangle the skirt and bodice of a dress in navy-blue tulle and an evening dress, with a silver embroidered bodice, has a flowing tulle skirt. Silver is more usual than gold. There is a silver and white moiré dress which has a train falling from the shoulders. It is cut on the lines of a Court train and lined with rose-pink silk.

## Brushing The Hair

Hair-brushing is coming in again. Soon it will not be smart to be particoloured, purple, or "permed" to the point of looking as though one wore a crop of coconut matting. For some time combing has been trying to cope with the tresses that could never look bright unless they were oiled. Many people relied upon their corrugations to disguise the fact of dead-looking hair. The set-back hats have, however, brought a searchlight to bear not upon the handling of the hair so much as upon its quality.

The smartest kind of hairdressing is that of the Duchess of Kent, who has a little central parting in front of her hat. The hair is done close to the head to show its outlines, with only a little modification here and there if that outline is less perfect than could be wished. And the front part of the hair at least is brushed, with a rather soft brush, for a long time. As a rule it takes time to bring back the original lustre of the hair which has been spoilt by dyeing, curling, and what not. But brushing has such results that it is likely to become almost as popular as tanning, and in a short time it will again be inflicted on schools who were formerly expected to brush their hair for ten minutes every night. It was time for the reaction against dull, unreal-looking hair. It will be interesting to

SECRET ARMS  
DUMPSentenced Farmer  
And De Valera

Sentence of four years' penal  
servitude was passed at a Dublin  
military tribunal on Joseph Donal  
Collins, aged 41, a farmer, of Sal-

lins, Co. Kildare, for concealing  
arms. The police, it was stated, found  
about 8,000 rounds of rifle and re-  
volver ammunition and 12 sub-  
machine guns. "I held these guns,"  
said Collins, "by virtue of an order  
from the then President of the  
Irish Republic, issued to all ranks  
at the 'Cease Fire' to dump arms  
and in no circumstances to hand  
them over to the Free State Gov-

ernment. The President swallowed  
the oath and has become the Free  
State Government. That man's  
tactics have brought me into this  
dock."

It was stated that one lot of  
ammunition was of English make,  
which had apparently been carried  
from Woolwich.

**SHE'S DANGEROUS!**  
"She's Dangerous!" the Universal picture which is showing at the Alhambra Theatre to-day, is high pitched drama played by convincing performers who portray their roles in a vibrant key. Tala Birell, both attractive and emotional, is seen in the character of an insurance detective who traps a gang leader after he steals a half million dollars worth of bonds. The mobster, interpreted by Cesar Romero, becomes wildly infatuated with Tala Birell and later is madly jealous of her love affair with a doctor, enacted by Walter Pidgeon, whose return to the screen is most welcome.

### STEP LIVELY, JEEVES!

"Charming chappies, these gunsters!" was Jeeves' amiable comment, but it seems they sometimes get rough, and then it's Jeeves, by Jeeves, who gets tough. A mobster's social error makes P. G. Wodehouse's lovable "gentleman's gentleman" tear loose to teach gangland to mend its manners in Twentieth Century-Fox's bit of jolly nonsense, "Step Lively Jeeves!" which has its run at the Queen's Theatre to-day, with the sad-eyed, elongated Arthur Treacher in the title role. Patricia Ellis and Robert Kent are featured in the romantic leads.

### THE KING'S VACATION

Most of the medals which have been sold or pawned or flung in the past ten years appear all together in one scene in the new George Arliss starring vehicle of Warner Bros., "The King's Vacation," which is now showing at the King's Theatre. The early sequences of it are full of generals and aides and statesmen, all very much in uniform and all wearing several pounds of decorations and medals. Mr. Arliss himself wears twenty-five or thirty of them on the two dress uniforms he uses in the early scene. He soon tires of this pomp, however, and takes a desired vacation, the surprising incidents of which form the basis of the story.

### SWING HIGH, SWING LOW

Carole Lombard and Fred MacMurray, the romantic team of "Hands Across the Table" and "A Princess Comes Across," are together again in "Swing High, Swing Low," a romance with music commencing to-morrow at the Queen's and Alhambra Theatres. "Swing High, Swing Low" is the story of night club life in Panama and New York. Miss Lombard plays the role of an entertainer in a Panama cabaret, who makes a famous musician out of MacMurray who has been very much on the loose in the canal port. This role gives Miss Lombard an opportunity to sing and dance, the first time she exhibits her talents in these fields, and MacMurray plays the trumpeter, also for the first time in pictures.

The cast includes glamorous Dorothy Lamour, the beauty who captivated film - goes in her inaugural screen debut, "The Jungle Princess." She plays the role of "the other woman" with whom MacMurray falls in love. Miss Lamour, who was famous as a radio singer before her entry into pictures, also sings and dances in "Swing High, Swing Low." The cast was completed by well-known featured players, including Charles Butterworth, Jean Dixon, and Harvey Stephens.

### STRAUSS VISITING VIENNA

Vienna, May 19.  
Richard Strauss arrives here to-morrow morning for the purpose of conducting a concert on Thursday of a massed orchestra, comprising the Vienna Philharmonic and the Symphonie Orchestras. This is the first appearance of Richard Strauss in Austria since 1933. He has been made an honorary member of Vienna Concert House Society.—Transocean News Service.

Who wouldn't gladly get an eye blackened on the guarantee that luscious Carole Lombard would take care of it? Not Fred MacMurray, anyhow, as you may observe in this scene from "Swing High, Swing Low," the couple's latest co-starring film, due simultaneously at the Queen's and Alhambra Theatres on Saturday, May 22.

### Duke Of Windsor And A Book

His Solicitors Demand Its  
Withdrawal

### WRIT THREATENED

Messrs. Allen and Overy, of Finch-lane, City, solicitors to the Duke of Windsor, made it perfectly clear that the Duke is determined to claim his rights as a private citizen in the Law Courts, should he consider anything written about him as libellous, writes a Home correspondent.

Mr. A. G. Allen, of the firm of solicitors, who saw the Duke in Austria some time ago, has written to the publishers and author of a book called "Coronation Commentary," demanding its immediate withdrawal and an apology.

If this demand is not complied with, a writ for libel against the publishers and author will be issued on behalf of the Duke.

The publishers are Messrs. William Heinemann, Ltd., of Great Russell-street, W.C.1. The author is Mr. Geoffrey Dennis, for many years attached to the Secretariat of the League of Nations in Geneva.

### "BEING CONSIDERED"

Messrs. Heinemann have no comment to make on the threatened writ for libel. An "Evening News" representative was informed that the matter is "being considered."

The "Evening News" understands that the Duke of Windsor discussed with Mr. Allen during the latter's visit to Austria certain other publications dealing with the Abdication.

Objection is taken in this book to two chapters—"Edward, VIII" and "Abdication." The Duke got in touch with Mr. Allen as soon as Mr. Dennis's book was brought to his notice.

A member of the staff of Messrs. Allen and Overy said: "No other writs are threatened against any other firms or authors. Should exception be taken to other writings about the Duke of Windsor, similar action will certainly follow."

"Coronation Commentary" is Mr. Dennis's sixth book, in 15 years. He was an undergraduate at Oxford at the same time as the Duke of Windsor.

### BABES IN TOYLAND

Victor Herbert's immortal "March of the Toys" and "Castle in Spain," as well as the delightful fantasy and story book figures of childhood, have been brought to the screen in a film that should prove a joy and revelation to children and grown-ups.

The picture is the Hal Roach-M-G-M production, "Babes in Toyland," a new feature-length vehicle starring Laurel and Hardy, and showing to-day at the Majestic Theatre.

In this feature, Laurel and Hardy again don costumes that differ from their orthodox baggy suits and derbies. They are two apprentice toymakers, who in their sincere but wild attempts, to get the Widow Peep, who lived in "The Shoe," and her daughter, Bo-Peep, out of the clutches of Toyland's villain, Barnaby, involve themselves in a series of hilarious events that at times turns the operetta into a screamingly funny comedy.

## IMPERIAL CONFERENCE

### Principal Delegates Meeting

London, May 18.  
A communique was issued to-  
night after the first meeting of  
the principal delegates to the Im-  
perial Conference at 10, Downing  
Street. It states that a Committee  
on the constitutional questions was  
set up. Discussion on foreign af-  
fairs was begun by a review by  
the Foreign Secretary, of the ge-  
neral international situation,  
which was supplemented with  
some remarks by Mr. Stanley Bal-  
win. After a short discussion of a  
preliminary character, the meeting  
was adjourned until Friday morn-  
ing.

This afternoon's meeting of the  
principal delegates lasted an hour  
and three-quarters, and of that  
time Mr. Eden's speech occupied  
an hour. He gave a complete sur-  
vey of the international outlook,  
covering a great deal of ground,  
and dealt with the problems con-  
fronting Europe and the world. A  
portion of his review was of a his-  
torical character.

There was a general feeling  
among the delegates that before  
any particular expression of view  
was given, time should be allowed  
to study what had been said by  
the Foreign Secretary. It is pro-  
bable that Mr. Eden will, at subse-  
quent meetings, be asked to ex-  
plain the various points in greater  
detail.

### EUROPEAN PROBLEM

London, May 19.  
The first business meeting of the  
principal delegates of the Imperial  
Conference was held this afternoon  
and lasted an hour and three-  
quarters.

After appointing a committee on  
constitutional questions, the meet-  
ing heard Mr. Anthony Eden, the  
Foreign Minister of Great Britain,  
give a broad outline of foreign  
affairs, with their true historical  
background, from the time of the  
Treaty of Versailles.

Mr. Eden's address dealt mainly  
with the European problem, which  
was dealt with as objectively as  
possible. The Prime Minister, Mr.  
Stanley Baldwin, supplemented the  
Foreign Minister's survey of affairs  
with a few comments of his own.

It is understood that interven-  
tions in the debate by Dominion  
statesmen were few, as they want  
time to consider the implications  
of the address Mr. Eden delivered.  
The meeting adjourned until Fri-  
day when Mr. Eden will clear up  
any outstanding points.

### PARIS POLITICAL ACTIVITY

Paris, May 19.  
The activity of the French Gov-  
ernment to-day was solely concern-  
ed with foreign political issues.  
Considerable interest is being taken  
in the conversations with Dr. Guido  
Schmidt, Austrian Foreign Minis-  
ter, and it is worth noting that  
these conversations are being  
brought in connection with the ne-  
gotiations that took place between  
M. Litvinov, M. Yvon Delbos and M.  
Leon Blum, the results of which  
were communicated to the Cabinet  
to-day.

Concerning the conversations of  
Dr. Schmidt, very little is disclosed  
in the official communique, which  
contents itself by stating that the  
two statesmen could establish the  
identity of their Governments on  
issues concerning France and Aus-  
tria. The press comments go  
much further, stating that France  
will have to revise its policy of pro-  
tecting Austrian independence, see-  
ing that Germany and Italy seem  
no longer rivals in the matter. Ex-  
traordinarily enough, it is stated  
that M. Litvinov and M. Delbos are  
advocating a joint policy concern-  
ing the advancement of a federa-  
tion of all Danubian states. Never-  
theless, it is stated that the French  
backing of this scheme will not be-  
come active, considering especially  
that Great Britain is adverse to  
committing itself militarily in the  
Danubian Basin.

An interesting sidelight is thrown  
on the conversations by the order  
issued by the French Police for new  
measures for protecting foreign  
statesmen. The big limousine car  
used by M. Litvinov is heavily arm-  
our-plated, although there is noth-  
ing in its general appearance to  
indicate the fact. Times of arrival  
and departure of foreign states-  
men are not announced, nor their  
daily programme. This it is not  
yet actually known, whether Prince  
Regent Paul of Yugoslavia has ac-  
tually arrived here from London or  
not.

## RADIO-PHONE INAUGURATED

### Shanghai Talks To America

Shanghai, May 20.  
Voices spanning ten thousand  
miles of space were heard clearly  
when the radio-telephone service  
between China and the United  
States was inaugurated last night.  
About six hundred invited for the  
occasion heard two loud speakers  
exchange greetings. Americans  
were specially thrilled to hear Mrs.  
Roosevelt whose voice was strong  
and clear. Madame Chiang Kai-  
shek, stressing the wonders of  
science which annihilated the dis-  
tance between the peoples asked  
"Isn't it too bad science has also  
been devoted to the annihilation  
of the peoples themselves?"

### KING AND QUEEN AT PORTSMOUTH

London, May 19.  
The King and Queen, accompan-  
ied by Princess Elizabeth, left Lon-  
don by train this afternoon and  
descended at Cosham Station out-  
side Portsmouth for a drive  
through six miles of cheering  
crowds to the Guildhall.

After the civic ceremony they  
proceeded to the Dockyard and  
embarked on the Royal Yacht,  
Victoria and Albert. Their Majes-  
ties were received with greatest  
enthusiasm along the route lined  
by police, assisted by 400 men of  
the Royal Navy, 150 machines, 700  
regular, and 300 territorial troops,  
together with guards of honour  
composed of 2,000 girl guides, 1,000  
boy scouts, and 800 ex-servicemen.

There are now 160 warships in  
line ready for to-morrow's review.  
This morning the First Lord of the  
Admiralty, Sir Samuel Hoare, paid  
an informal visit to the ships of  
the Royal Canadian Navy, the New  
Zealand division Royal Navy and  
the Royal Indian Navy.

### BASQUE TRENCHES BOMBED

San Sebastian, May 18.  
Taking sudden advantage of the  
temporary improvement of the  
weather to-day, General Mola's  
air squadrons rained bombs on the  
Basque trenches and fortifica-  
tions.

Meanwhile his troops had ad-  
vanced beyond Amorbieta up to  
the village Izuria, whilst the vil-  
lage, Zoruzoa is now being sub-  
jected to artillery bombardment.

## Freedom Of The Press

The Newspaper Society held its  
annual dinner at Grosvenor House  
on May 4. Mr. James Henderson  
presided.

The following message was re-  
ceived from Buckingham Palace:-  
"The King and Queen sincerely  
thank the members of the News-  
paper Society and their friends  
dining together this evening for  
their loyal greetings and good  
wishes, which their Majesties much  
appreciate."

Mr. Samuel Storey, M.P., propos-  
ed the toast of "Our guests."

Mr. J. A. Lyons, Prime Minister  
of Australia, in reply, said that be-  
fore he was 10 years old he was  
working on a little weekly news-  
paper in a little village in his  
native State of Tasmania. There  
were as many plitudes spoken  
about the freedom of the Press as  
about anything else. That was be-  
cause they took that freedom for  
granted. If they ruled out the  
English-speaking countries in the  
world there was not left a  
very great deal of freedom  
for the Press. Freedom of  
the Press was associated with de-  
mocracy. It was vital to the exis-  
tence and continuance of de-  
mocracy, and if they thought  
democracy worth while and  
worth fighting for, then it  
was worth also putting up a  
fight for the freedom of the Press.  
Even in countries where dictators  
reigned public opinion could not  
be disregarded and the Press was  
used as an instrument for creating  
public opinion in those countries.  
There was necessity for mutual con-  
fidence between governments and  
the Press, and he had always made  
it his policy to be frank and  
straight-forward with newspaper  
men. His confidence had never  
been betrayed.

Lord Craigavon proposed the  
toast "The Newspaper Society." He  
said the Press might be regarded  
as the outward and visible sign of  
the sentiment of loyalty and af-  
fection that held together the  
British Commonwealth of Nations.  
It was asked what characteris-  
tic he most admired in the Press

## RECONSTRUCTION PLAN IN PEIPING

### REPAIRS TO SUMMER PALACE

Interviewed in Peiping by local  
Chinese pressmen Gen. Chin Teh-  
chun, Mayor of Peiping, who had  
returned from Tientsin, said that  
as part of the programme of the  
local municipality for the beauti-  
fication of Peiping, a number of  
buildings in the Summer Palace  
would be repaired. These included  
the famous "Chang Lang" or Long  
Corridor. General Chin estimated  
that at least \$50,000 was needed  
for this purpose and that this  
would come from the revenue of  
the Palace.

General Chin further said that  
a number of roads in the city  
would be further improved. He  
hoped that in a short time all the  
principal streets of the city would  
be modernized.

General Chin denied that the  
Municipality intended to increase  
the existing rates of the business  
tax but added that the existing  
system of collection would be  
reorganized.

He confirmed the report that  
China had decided not to partici-  
pate in the International Exposi-  
tion in Paris owing to the inability  
of the preparatory committee to  
send Chinese exhibits to France  
before June 1. The Hopt-Chahar  
Political Council had appointed  
Madame Dan Pao-chao to rep-  
resent it at the Exhibition and  
although exhibits from these two  
provinces would not be sent to  
Paris Madame Dan would go to  
Paris as the representative of the  
Council just the same.

### FOREIGN MINISTERS DINE TOGETHER

London, May 19.  
The Foreign Secretary received a

was the guest at a dinner, given  
by the Netherlands Minister.

## LARGE INCREASE IN CLAIMS REPORTED

### China Underwriters Hold Annual Meeting

The thirteenth annual general meeting of China Underwriters Ltd was held at 4A, Des Voeux Road Central, yesterday. Mr. A. L. Shields, Chairman of the Board of Directors, presided.

Claims at \$62,243, said Mr. Shields, showed a very large increase on those shown in the previous year owing to two comparatively large total losses.

The Chairman said:—

Before proceeding with the regular business of the Meeting, the Directors wish me to express their regret at the death of Mr. C. A. da Rosa, who has been a Member of the Consulting Committee and the Board of Directors since the commencement of the Company, and has on more than one occasion acted as Chairman.

We have now the pleasure to lay before you our report and accounts for the year ending December 31, 1936, and, as these have been in your hands for the required period I will, with your consent, take them as read.

As on previous occasions, revenue items have been converted to Hong Kong dollars or sterling at monthly rates of exchange and balance sheet items at rates ruling on December 31, 1936.

The figures have then been combined at 1s. 2/8d. as compared with 1s. 3 1/2d. at December 31, 1935.

In the Life Assurance Department annual premiums at \$804,477 are about the same as last year, and we have in addition received consideration for annuities of \$20,060.

Claims by death at \$91,096 are heavier than the unusually light figure of \$57,139 in 1935.

Surrenders show a satisfactory reduction from \$152,520 to \$101,234.

Expenses at \$199,237 show a decrease from the figure of \$214,553 in 1935. Agency Expenses have been reduced by 50 per cent since 1933.

#### LIFE ASSURANCE FUND INCREASE

The Life Assurance Fund, which, together with the paid up capital, represents the Reserve against the Company's Actuarial Liabilities, shows an increase from \$336,427 to \$572,268. Of this increase \$27,518 represents the exchange profit on the conversion of funds at the beginning of the year. Excluding exchange the increase was \$208,323 as compared with the corresponding figure of \$135,831 last year, and is by far the largest increase yet shown in the Life Assurance Fund.

In the Fire Insurance Department premiums at \$107,379 are about the same as in 1935.

Claims at \$75,897 show a considerable increase over the light figure in 1935.

Expenses show a small reduction, and the Reserve in this account is reduced from \$86,478 to \$72,586. The expenses will be further reduced by certain economies in the departmental working which will take effect during the current year.

In the Accident Department net premiums at \$48,782 show a reduction from the figure of \$53,637 in 1935.

Claims at \$32,876 have been heavier owing to unsatisfactory results in one agency.

The Accident Funds at \$47,313 show a reduction from the figure of \$55,356 at the beginning of the

year, but are ample to cover the unexpired risks under existing policies.

In the Marine Department premiums at \$80,969 are very slightly lower than the figure shown in 1935.

#### CLAIMS SHOW INCREASE

Claims at \$65,243 show a very large increase on those shown in the previous year owing to two comparatively large total losses, but show a reasonable ratio over the past 2 or 3 years.

Expenses have been reduced and the fund has decreased from \$167,890 to \$155,881. The present fund bears a very large ratio to the Premium Income and to the total claims paid during the year, and is ample to take care of any claims which may arise in respect of unexpired risks.

The main item in the profit and loss account is the interest on investments not carried to other accounts. After transferring \$45,000 from this Account to General Reserve, there remains a balance to the credit of profit and loss of \$10,237.

Turning to the balance sheet, the value placed on investments is within the market value on December 31, 1936 without taking into account the Exchange and Investment Fluctuation account stands at \$250,054 while the General Reserve account, after transferring the \$45,000 referred to from the profit and loss account, stands at \$165,000.

The somewhat large amount invested shown as "Cash on Current Account, &c." has since been invested in suitable securities, and at the present time our balances available for investment are small.

In conclusion, I should like to place on record our appreciation of the valued co-operation of the Managing Director, the Branch Managers, Secretaries and Staff, and I have now the pleasure to propose the adoption of the report and accounts for the year ending December 31, 1936.

The chairman's proposal for the adoption of the Report and Accounts was seconded by Mr. N. V. A. Croucher and was carried unanimously.

#### OTHER BUSINESS

On the proposal of Mr. H. J. M. Figueiredo, seconded by Mr. Lo Chung Wan, Messrs. A. L. Shields and R. A. Dastur were re-elected to the Board of Directors.

Messrs. Lowe, Bingham and Matthews, and Messrs. Percy Smith and Fleming were re-elected auditors at a remuneration of \$1,250 each on the proposal of Mr. E. I. R. Leitao, seconded by Mr. Lee Yak Ngok.

Present at the meeting were:—Messrs. A. L. Shields (Chairman), R. A. Dastur, Li Tse Fong (Directors), H. R. Sturt, (Managing Director) E. R. Childe (Secretary). Others present were Messrs.—Y. N. Lee, C. A. L. Rickett, F. G. Barros, and H. J. M. De Figueiredo. (Shareholders).

## COURT MARTIAL VERDICT

### Gunner Banbury To Be Sentenced

The verdict of the District Court Martial on six charges preferred against Gunner E. R. H. Banbury, 24th Heavy Battery, R.A., was announced at the final sitting at Stonecutters Island yesterday.

The verdict was:—Housebreaking and larceny on the night of March 28/36, when with Gunner Edward Halliley, he did break and enter the Quarter Master Sergeant's Stores and steal 60 rounds of blank ammunition valued at 3s. 8 1/2d; Guilty.

An act to the prejudice of good order and military discipline by pointing a rifle and bayonet at Gunner R. Arnold; Guilty.

Assault on a police officer in the execution of his duty, in that he, at Stonecutters Island during the night of March 28/36, with Gunner Halliley, assaulted Indian Police Officer No. 114 Fazli Khalis, Royal Naval Yard, by striking him with his fist; Guilty.

Offering violence to his superior officer, in that he, when spoken to by Lt. Bdr. C. Gibson, presented a bayonet at him; Not Guilty.

Willfully injuring public property, in that he, in company with Gunner Halliley did willfully break 71 panes of glass and one sash bar, to a total value of \$40.87; Guilty.

Disorder to the prejudice of good order and military discipline, in that he, in company with Gunner Halliley did create disorder on Stonecutters Island; Guilty.

Sentence will be promulgated later.

The Court comprised Major H. McL. Morrison, M.C. (Royal Ulster Rifles) as Judge, Advocate, Major I. C. Barclay, M.B.E. (Seaforth Highlanders), Capt. R. F. A. Crookshank (Royal Ulster Rifles) and Lieut. W. Cotnam.

The prosecuting officer was Capt. M. Yates (R.A.), and the defending officer Capt. L. C. Marson (R.A.).

#### LOCAL ESTATES

George Bispham, late of No. 60, The Drive, Hove, in the county of Sussex, England, who died on March 3, 1936 at Taj Mahal Hotel, Bombay, in India, left local estate to the value of \$6,300. An application by Ralph Archibald Wadson, solicitor, the lawful attorney, for sealing certified copy of probate of the will and codicil of the deceased has been granted by the Supreme Court.

Local estate sworn under \$3,600 was left by the late Mr. Louie Cheung, alias Louie Jones, who died at Lin Wai Village, Fatsan, in the Province of Kwangtung, on September 18, 1936 having attained the age of 46 years intestate. A petition by Louie Yeung-shi, widow, of the same village, temporarily residing at No. 58 Connaught Road West, for grant of letters of administration to the estate of the deceased has been granted.

The late Mr. John James Woolen who died at Tientsin in the Republic of China on November 22, 1936 left local estate sworn under \$1,300. An application by Ralph Archibald Wadson, solicitor, the lawful attorney, for sealing letters of administration with the will annexed to the estate of the deceased has been granted.

#### THEFT ON VACANT FLOOR

Wong Hoi, aged 24, unemployed, who appeared before Mr. K. Keen at the Central Magistracy yesterday on a charge of stealing an iron grille from No. 88 Robinson Road on Tuesday, was sentenced to two months' hard labour.

Lance Sergeant Dall stated that No. 88 Robinson Road was one of two vacant floors and a number of articles had been stolen from the premises recently. While an Indian constable was patrolling the district the day before yesterday, he heard noises inside the building and on entering he saw two men, the defendant being one of them. The other man ran away but the defendant was caught by the Constable. The value of the grille was \$25.

## ROYAL NAVY Schoolmaster Branch

The promotion is announced from May 1 of Headmaster Lieutenant-Commander A. D. Lewis, M.B.E., to the rank of headmaster commander. He is the first to be advanced to this rank on the active list consequent on the changes in the titles of the Schoolmaster Branch, announced in "The Times" of April 24.

#### FLOTILLA LEADER CHANGE

H.M.S. Kempenfelt has been recommissioned with a Chatham crew for service as the ship of the Captain (D), 4th Destroyer Flotilla Home Fleet, Captain R. R. McGregor, in place of the Campbell. The latter ship has reduced to care and maintenance status under the administration of the Commander-in-Chief at the Nore pending transfer to the Reserve after the Coronation Review. Lieutenant-Commander W. J. Fisher, late of the battleship Resolution, has been appointed in command.

#### R.N. BENEVOLENT SOCIETY

Attention is drawn in Fleet Orders to the work of the Royal Naval Benevolent Society, which was instituted in 1937 to afford relief to distressed officers of the Navy and their dependents. It is pointed out that although the Admiralty has introduced a scheme of life assurance for naval officers, this does not make it any less necessary to join the society, because its benefits are chiefly for emergencies which life assurance does not cover. In 1936 the grants made in 96 cases amounted to £3,899 and in 88 other cases to £280. The office of the society is at 18, Adam Street, Adelphi, London, W.C.2.

#### RETURN OF THE HASTINGS

H.M.S. Hastings is expected to leave Malta to-day for home. She has been repaired at a cost of about £46,000 after grounding on the Shakkub reef, off Suakin, while on passage to Port Sudan in June, 1935, during service with the Red Sea Division. The Hastings should arrive at Plymouth on May 8 and will probably be recommissioned on May 10 for service as Senior Officer's ship in the Fishery Protection and Minesweeping Flotilla, Portland, in succession to the Harebell.

#### ALL PARTIES BOUND OVER

There was a sequel, before Mr. K. M. A. Barnett at the Kowloon Magistracy yesterday, to the assault which took place on April 20, at the Fuk Sang shoe shop, at No. 434, Nathan Road, when Ng Yick-nam was alleged to have struck Fung Sal-man, twice on the same day.

The trouble was said to have started through a pair of shoes which, according to defendant, had been made intentionally too large by complainant, who was assigned to the work by his master, brother of the defendant.

Complainant, in his evidence, stated that when he returned to the shop just before noon on the day in question, he saw that his belongings were all scattered on the floor. He was informed that defendant was responsible for the mischief.

His Worship, after hearing the facts, said that there was not enough evidence to register a conviction. Defendant was discharged.

To prevent further disorder his Worship bound over both parties and also defendant's brother, who was the master of the shop, in the sum of \$20 each to keep the peace for one year.

#### DOING THINGS IN STYLE

A heroin divan, which was elaborately fitted out, was discovered by Senior Revenue Officer Grimmit at No. 167 Des Voeux Road Central on May 12, when a raid was carried out. Chan Sze, the man in charge of the floor, appeared before Mr. K. Keen at the Central Magistracy, charged with being in possession of heroin pills.

S.R.O. Grimmit stated that the premises was a very large divan and 22 pipes, together with 25 lamps, were found on the floor. Electric bells were installed and beside every bed there were thermos flasks and maid servants were there to attend to the customers' wants. The floor was next door to the Sincere Company.

One year's hard labour was imposed on the defendant with a further fine of \$2,500 or six months' hard labour. All articles found on the premises were ordered to be confiscated.

#### THREATENED TO KILL NEPHEW

Fong Kan, aged 26, unemployed, appeared before Mr. K. Keen at the Central Magistracy yesterday on a charge of committing a breach of the peace at the Yee Tak Sesame Seed factory on May 13. In answer to the charge defendant stated that he only wished to obtain some money from his elder brother so as to be able to go back to the country.

Sergeant H. Danbrowsky said that the complainant, Fong Shi-cheun, aged 39, was the master of the seed factory and elder brother of the defendant. At 10.30 p.m. on May 13, defendant went to see him and asked him for some money but was refused. As the door of the house was shut against the defendant he started to kick it down and threatened to kill his four-year-old nephew the next time he saw him if the complainant did not give him the money he wanted. The elder brother then called for the police and had the defendant arrested.

Defendant was commonly known to be an annoyance in Shaokwan. A breach of the Deportation Ordinance was proved against the defendant in a previous conviction in 1934. His Worship imposed a fine of \$25 or a month's hard labour in default, and ordered the defendant to be sent back to the country when his sentence expired.

#### SALE OF FOUR CHILDREN

Through information received, three men and one woman, who were alleged to have been responsible for the transactions of four minors, between the ages of two and three years, were arrested and charged before Mr. E. Hims-worth at the Kowloon Magistracy yesterday with the sale of the children.

Li Kwan-cheung, aged 37, who was alleged to have bought these children from their parents, intending to take them to Malaya where they were to be sold again to families who wanted to adopt children, was convicted and sentenced to twelve months' hard labour. It was disclosed that he was a returned brigand.

The three other defendants, Ho Wing, 30; Chau Ng, 44, married woman; and Lam Wan, 53, alleged to have acted as go-betweens, were discharged.

#### Returned Banished In Court

Banished from the Colony for life last November, Chan Yau, 62, unemployed, made his appearance before Mr. W. Schofield at the Central Magistracy yesterday. He was arrested on May 17. His Worship sentenced the defendant to a term of 12 months' hard labour.

Yuen Fu, 26, unemployed, another banished who was banished for five years in August 30, 1933 was sentenced to six months' goal for returning to the Colony before the expiration of his banishment.

Wong Loi alias Wong Yau was sentenced to twelve months when he was convicted for returning to the Colony before the expiration of his banishment. He was sent away for life in November last year. The defendant was arrested in Des Voeux Road on May 18.

### KEEPING OUT OF WAR

Whether or not it can be done, America intends to try. In international affairs distant prospects are not necessarily the most pleasing, nor opinions formed half the world away necessarily the most reliable. In spite of the war in Spain and of the changing policies in the Danube Basin, European observers find it possible to believe that a new balance of power will be found and that there need not be an other Great War—just yet. But, seen from the United States, the European situation seems not only deplorable: it seems desperate. Americans are convinced that a great European war is bound to come. It will, they argue, come from causes over which they have no control. They have therefore no intention of being involved in it, and so they not only avoid concrete understandings with any European country and membership of the League of Nations, but have also framed, for the second time, a Neutrality Act that is meant to keep America isolated.

That the new Act should have been debated in Congress up to the last minute is the measure of America's anxiety over this problem. That it should be so like the temporary legislation it replaces is the measure of her determination not to give any pledge in advance. It can be argued that a knowledge that America would favour the victim of aggression and discriminate against an aggressor would strengthen the democracies in their search for peace. President Roosevelt might be willing to give such a promise. But his is not the decision. The decision rests with the American public, which is sure of what it wants—the new non-intervention rather than the old neutrality—though it may not be quite sure how that can best be obtained. So it continues to be illegal for Americans to export arms to a belligerent, to grant him loans, or to travel in his vessels. And it is in the President's discretion to put trade with belligerents on the new "cash and carry" basis.

This last is perhaps the most determined of all America's efforts to keep out of war. No longer does America insist on the "freedom of the seas" for her merchant ships. This is an in-

## THE ARMY

### Physical Training For Recruits

The War Office has recognized that many youths who fall to pass the medical officer at the first attempt can be built up in a "three months" conditioning course" to pass the required standard, and the experiment made last year is being followed by a more ambitious trial.

The Army School of Physical Training at Aldershot has had a remarkable record of success in the experimental treatment. These quarters are only temporary and will be transferred in August or September to a permanent depot at Canterbury, where a hospital building is now being converted to house this special unit. In the meantime more recruits will be received at Aldershot, where a total strength of approximately 300 men is expected for training.

The Recruit Physical Development Depot will confine itself to special training courses and diet. The instructors will be provided by the Army School of Physical Training, and will consist of about 200 junior N.C.O.s under a C.S.M. instructor. The recruits will be under the daily supervision of the depot's medical officer, and a close watch will be kept on individual development.

#### SKILL-AT-ARMS

The Imperial Skill-at-Arms Championship at the Royal Tournament will be directed by the Inspector of Physical Training at the War Office, Colonel G. I. Brown, D.S.O. The Staff Officer of Combats will be Captain E. B. Smith, R.A., G.S.O.3 at the War Office, assisted by Captain T. James, who is Master-at-Arms, Army School of Physical Training, Aldershot. The Inspector will have two assistant directors acting with him, Lieutenant-Commander E. A. Mount Haas, R.N., and Major A. L. Cameron, D.S.O., M.C., R.H.A., Chief Instructor at the Equestrian School.

genious way out. The profit of war will not disappear, but the risk will, or so Americans hope. For the cash for wheat, cotton, oil, and meat will be paid before the goods leave America, carried in the belligerent's own ships. Of course, that is not impartiality, even if it is non-intervention. It has already been pointed out in America that the belligerent who will benefit most by it is the one with command of the seas. Britain at least need not complain about it, even if it contains no positive contribution to peace.

The "cash and carry" clause is to last only two years, which is an indication of the current American feeling that something better may yet be found. American opinion on co-operation with the peace-loving democracies, especially the British Commonwealth, has not reached anything like finality. President Roosevelt recognises a common aim—the preservation of peace throughout the world—and recognises, too, that this is something that will not come of itself, but for which apparent risks might have to be taken. American opinion, remembering the timidity of the democracies over Manchuria and Abyssinia, is a long way yet from sharing the President's opinion.

But the sympathy which the American public has shown for recent victims of aggression does not argue indifference to international justice. America is willing to be convinced that the democracies mean the right thing. That is the hopeful aspect of the crusade against economic nationalism which was discussed when Mr. Runciman visited Washington, and which is now making a tentative beginning in Europe. Such co-operation with America is worth Britain's while. For even if it should fail to prevent a major war—by which Americans means a war involving us—it will influence American opinion on the right side.

## RADIANT LIVING

### Another Lecture By Dr. Sutcliffe

Dr. Herbert Sutcliffe again drew a very large audience to the Helena May Institute yesterday evening. Delightful music from a hidden orchestra opened the proceedings, and the Secretary, Miss Dorothy Law, came on the platform to introduce the lecturer, and spoke with enthusiasm of the wonderful results she has witnessed in the way of mental and physical rejuvenation among those who seriously study Dr. Sutcliffe's science of Radiant Living.

The speaker then came on the platform and gave a very interesting lecture on the subject of "Mental Science in Relation to Health." He gave a clear explanation of the way in which mental and physical conditions react on each other, and stressed the importance of living harmoniously. He also dwelt on the difficulties of living under modern conditions, and showed the strain put upon the nerves of those whose daily lives are swayed by such emotions as fear, hate, jealousy or anxiety. At the same time he went far in proving his contention that the power of the spirit can triumph over every handicap and took as his slogan the words "Faith and Persistence Win Through."

It was obvious that his audience was deeply interested by his illuminating and impressive address.

### China's Coronation Delegate

Dr. H. H. Kung, Vice-President of the Executive Yuan and Minister of Finance, who is China's special Ambassador and chief delegate to the Coronation, has arrived in London accompanied by a number of economic and trade experts, states the "Manchester Guardian" on May 5. They include the Vice-Minister of Railways, the Director of the Research Bureau of the Chinese National Economic Council, the Director of the Foreign Trade Bureau, and the Superintendent of Customs at Shanghai. The reason is that Dr. Kung intends, after the Coronation, to study European economic and industrial methods. He will remain in England until about May 23, and will then visit most of the chief European countries and probably pass through America on his way home. Dr. Kung says that his mission is one of study, not negotiation, but one may assume that his presence in England will not be forgotten by Whitehall if the rumoured Anglo-Japanese conversations about China take place. It has been stated by two London papers that Japan will shortly invite Great Britain to discuss co-operation between the two countries for the economic rehabilitation of China. One can say no more about this than that the Japanese Ambassador here has so far received no instructions from his Government. A change of Japanese policy in China would not cause much surprise here, but any offers which Tokio might make would be examined with extreme care.

## SCIENCE AND SURMISE

### Impossible To Predict The Future In The Light Of The Past

The following letter appeared in a recent issue of the "London Morning Post":

Sir,—Many of those interested in practical science will welcome your protest regarding the recent statements as to a future decreased population and lessening intelligence. This kind of thing belongs rightly to academism and not to science; just as much as does economics to-day.

It is impossible to state scientifically to-day what will happen in, say, a hundred years, and it is not to the credit of science that statements covering quite unknown conditions in the future should be predicted by considerations of the present as seen in the light of the past. May we, therefore, congratulate you on your timely protest—which is quite in order from the point of view of practical science.

## PHILIPPINES REVIEW

### Ready For Self-Government?

We reprint the following editorial from the Phoenix "Arizona Republic" as being a particularly significant and pertinent commentary on the general question of self-government.

"For nearly two score years we were wondering whether the Filipino population was ready for self-government. That inquiry became a party issue in this country (America). About the time when we were approaching an agreement in favour of the Filipino capacity for self-government the Igorots, Tagalogs, or some other insular tribe, would break out and we would decide that the time was not yet ripe for Filipino independence.

We are not yet entirely of one mind as to the fitness of the Filipino, though we have decided to let him try. But we need waste no solicitude upon the Filipino in respect of his capacity for self-government. We may inquire with some pertinence whether we, the people of the United States, are capable of self-government. Every now and then something comes up to create a doubt in our minds regarding our fitness to govern ourselves.

Just at this moment it appears that one of the sovereign states is not—Michigan, where the state government and the mob are confronting each other, the government asking the mob how much it will take to behave itself after three months of turmoil kept up at cost of a half-billion dollars.

Michigan is evidently unfit for self-government; even of self-protection. If Michigan is so unfit, why may we not suspect that every other American state is? Our states are very much alike, all made up of the same kind of people, whereas in the Philippines there are many groups distinct as to language and racial characteristics.

We would hesitate to say that Michigan is less fit for self-rule than any other state. It is only that the charge of unfitness as to Michigan has been proved. The other states have not yet been subjected to such a strain as that under which Michigan is cracking. Perhaps none of the other 47 states would have done better under the circumstances, and with the same kind of a governor, than Michigan has done.

Anyway, we should like to know what the Filipinos think of self-government in the United States.

### Comments On The Sugar Agreement

It will be legally possible for the United States, because of the inclusion of a Philippines amendment in the agreement reached at the International Sugar conference, to give a preferential status to Philippine sugar after independence, Rafael Alunan, president of the Philippine Sugar Association, has stated.

The results of the conference are "very good," Alunan believed. "It will help stabilize the sugar industry and commerce," he added. Alunan said the provision regarding the Philippines will be a safe-guard against the use of the most favoured nation clause as a weapon against the Philippines.

Urbano Zafra, Filipino delegate to the London conference, informed Alunan the pact included an amendment favourable to Philippine interest as previously reported.

### Armament Programme

The Philippines in a few years are to be separated completely from the United States. It is imperative, therefore, that they speed an armament project capable of giving adequate protection. This they have started to do, and military experts say it is one of the finest defense schemes ever conceived.

But the Filipinos have not turned all their attention to war and the possibility of war. Appropriations for education are the highest in the history of the Islands and the government has devised new sources of revenue to provide for the increased educational outlay. School attendance will be compulsory and the methods of teaching advanced. The Filipinos intend to be progressive if nothing else and the welfare of the people comes first. War and preparation for war is a secondary, if important, consideration.

Military camps have been established and vocational instruction as well as the pursuits of the art of waging war have been included in the curriculum. The national defense programme contemplates not only the preparation of the citizens of the Islands to perform their duties effectively as soldiers in time of war but also their duties as citizens in time of peace. While all able bodied young men will be given military training, it is not contemplated that the professional army will ever have a personnel of more than 10,000 men at one time. So, as President Quezon points out, the talk of militarizing the Islands is without foundation.

The standing army will not be large but it will suffice. The same principle applies to the air force of the Islands. The defense system, patterned somewhat after that in Switzerland, goes considerably farther and embraces new features.

### Coronation Celebrations

The Coronation of King George VI and Queen Elizabeth was celebrated in Manila by members of the British community who at three different places paid homage to their King and Queen. The Manila Coronation activities started at the Manila Club at noon, were resumed again at the Cathedral of St. Mary and St. John at 5.30 in the afternoon when a service of Thanksgiving and Prayer was held and were climaxed at the reception and ball at the Manila Hotel.

Dermot MacDermot, acting British Consul General, was speaker at both the Manila Club and the Manila Hotel gatherings. In the glow of gem-like electric lights at the hotel, Britons and their friends offered toasts to King George VI, to Queen Elizabeth and the President of the United States. "God Save the King" was played after the toast to the King and the "Star Spangled Banner" was played when the toast was offered to the President of the United States.

Mr. MacDermot welcomed the guests composed of high officials of the American and Philippine governments and members of the British community. In his speech he compared the similarity of the governments and the problems of the British and the Americans. He stated that the two governments are working side by side for the fulfilment, preservation and stability of good government and political sanity in a world wherein such things are sadly threatened.

He spoke of the coronation as taking place at the moment of anxiety and terror in the history of the world, but expressed the hope "that peace and prosperity may return again to all of us during the reign of His Most Precious Majesty George VI whose health we now ask you to honour."

### New Aviation Firm Launched

The National Interisland Airways, a new aviation company engaged in chartered flights, christened its first plane recently and inaugurated its landing field at Manduyong, near the Wack Wack Golf Club.

The company has four Cessna cabin planes each carrying four persons including the pilot. T. W. Thompson, manager of the company, told the Bulletin that the company's planes all have cruising speed of 185 miles an hour and are believed to be the fastest commercial planes in the Islands.

The Cessna is believed to be the only commercial plane in the Islands equipped for night flying. It has two big retractable landing lights on each wing which throw sufficient beam to guide the flyer while landing at night. It is also equipped with flare tubes. When a flyer is landing, he can touch the button located at the dashboard and a flare shoots out on the side to give sufficient light for landing.

The plane is equipped with an engine having 150 h.p. It is manufactured by the Cessna Company in Wichita, Kansas.

The company which constructed its landing field and kept all facts quiet until it inaugurated its airport is capitalized at P100,000. All of the capital stock has been paid up, it was declared.

## AUSTRIAN VISIT TO PARIS

### PURELY A MATTER OF COURTESY

#### Discussions To Clarify Present Situation

Paris, May 21. The Quay d'Orsay characterises the visit of the Secretary of State for Foreign Affairs of Austria, Dr. Guido Schmidt, as purely a matter of courtesy, intended merely to emphasise the excellent relations existing between the two countries. The discussions between M. Delbos and Dr. Schmidt, however, are regarded as necessary to clarify the situation in Central Europe.

It is stated that France fully realises the difficulties of Chancellor Schuschnigg to keep the balance between Berlin and Rome, without endangering the trade relations of Austria with her two neighbours.

It is also thought that the rapprochement between Vienna and Budapest and Prague can best be dealt with in the League of Nations, and France and Britain, signatories to the Three-Power declaration regarding the maintenance of Austrian independence, will guard it against any pressure brought upon from outside forces.

It is stated that the moral support of France and Britain that Austria possesses is extremely important, since in it lies a certain guarantee to Austrian independence.

## ENGINEERS FOR THE NAVY

### New Scheme For Officers

#### DIRECT ENTRY FROM UNIVERSITIES

A new scheme for the direct entry of engineer officers into the Navy from the universities was announced in the House of Commons by Sir Samuel Hoare, First Lord of the Admiralty. These additional officers are needed because of the expansion of the Fleet, and it is understood that they will be on the same footing and have the same prospects as officers entered through the ordinary channels. The minimum age is 21, or about the age at which officers begin their sea service after training at the R.N. Engineering College, Keyham.

University entrants will undergo a two months' course in naval routine and discipline in the R.N. barracks and will then be available for appointments to ships. The new scheme opens up a fifth channel of entry to the Engineer Branch, for young officers. The others are by the entry of cadets at Dartmouth at 13½ years, and from the public schools at 17½ years; by the selection of certain artificer apprentices for appointment as midshipmen (E); and by the promotion of a few artificer ratings from the lower deck as sub-lieutenants (E).

#### TEXT OF ANNOUNCEMENT

The text of the Admiralty announcement is as follows:—

A number of commissions as engineer officers in the Royal Navy will be in future offered to university graduates each half-year. Twenty such commissions will be offered next September. Detailed regulations and entry forms may be obtained from the Secretary, Admiralty, London, S.W.1, or the authorities of the following universities:—

Birmingham, Bristol, Cambridge, Durham, Leeds, Liverpool, London, Manchester, Oxford, Sheffield, Aberdeen, Edinburgh, Glasgow, St. Andrews, Wales, and Belfast.

An applicant must ("a") have attained the age of 21 and not have attained the age of 25 on January 1 for appointment in the following February, or July 1 for appointment in the following September; ("b") be unmarried; ("c") be a British subject of pure European descent and the son of parents who are British subjects at the time of the candidate's entry; ("d") have undergone a course of not less than three academic years as an internal student (in certain circumstances the first year at a

Shanghai, May 20. As the steamer Prominent was about to sail for Tsingtau at midnight, the police arrested Ivan Akiev, 40 years old, and Eva Shear, 22, who are suspected of implication in the theft of \$3,900,000 worth of diamonds from a Nanking Road jewellery store.

## FLYING BOAT CAPSIZES

### Three Men Killed

Antibes, May 19. Three men were killed to-day when a French long-distance flying-boat capsized here while carrying out its trials. The others aboard were injured.

Witnesses ashore saw the machine overturn when struck by a big wave just as it was taking off at high speed. There was a terrific explosion and then the plane burst into flames.

The pilot, who held a number of international height records, was among the killed.

The plane was specially constructed for flights across the South Atlantic.

#### FINAL COUNT

Paris, May 20.—Five dead and two seriously injured is the final count in the terrible French air disaster which took place when a new sea plane landed at Antibes on Wednesday. The remaining five passengers are in a critical condition.

## TROTSKY'S LIFE IN MEXICO

### New Book Nearly Ready

Leon Trotsky is at present working twelve hours a day on his new book, "The Crimes of Stalin," which he hopes to finish very shortly. It is his reply to Stalin.

He is now a voluntary prisoner and lives like a recluse in the simply appointed house of the artist, Diego Rivera. This house is in Coyocacan, a picturesque local suburb.

Since he came here Trotsky has only left the place three times, each time for a brief outing, always in a motor car, accompanied by either one or both of his male secretaries.

#### ARMED GUARD

He is always followed by an armed guard. Indeed, the house where he lives somewhat resembles a military police barracks. There are eight uniformed and heavily armed constables on constant duty at the door, while twelve plain clothes policemen, also heavily armed, are always in the neighbourhood of the house. Everybody and everything that approaches the establishment is scrutinized, and only those who are well-known to the guards or members of the household or whose credentials are authentic, are admitted. Very few of the limited number of callers are able to see Trotsky personally. He only sees a few visitors—mostly journalists and authors, and practically all of them foreigners.

Trotsky's new book deals with the recent Moscow trials and will be about 100,000 words long. He is a rapid worker. He dictates everything first and then goes over it very carefully. The secretaries then have to translate it into the various languages in which he desires the production to appear.

Trotsky takes no exercise, unless an occasional stroll in the garden can be called exercise. But he keeps remarkably fit, and seems to have adjusted himself to Mexico City's altitude of 7,450 ft.

recognized Dominion university will be allowed; ("f") produce satisfactory evidence that he has been regularly trained in mechanical engineering and has sufficient practical experience; and ("g") possess an engineering degree (mechanical or electrical) which is accepted by the Institute of Mechanical Engineers as exempting from parts A and B of the examination for associate membership.

## STUDENTS WIN THEIR POINT

### Free Transportation For 400

Peiping, May 20. Four hundred students of the North-Eastern University, who took possession of the railway junction here yesterday, won a signal victory when the railway authorities gave in to their demands.

The students, who demanded free rail transportation to Nankin, where they intend to present eight demands to the Government, were folled yesterday by the refusal of the railway authorities to comply with their wishes.

Later, however, the authorities provided them with a special train, and 400 of them left late yesterday afternoon for the capital.

The students' demands include retention of Marshal Chang Hsueh-liang as Chancellor of the North-Eastern University, abandonment of the plan to remove the institution to Kailfeng and restoration of Nankin's monthly grant of \$25,000.

## ROYAL VISIT TO SANDHURST

### Memorial Chapel Dedicated

The King, accompanied by the Queen, Queen Mary, the Duke and Duchess of Gloucester, the Princess Royal and the Earl of Harewood, attended the dedication ceremony of the Memorial Chapel of the Royal Military College, Sandhurst, states the "Times."

Including the gentlemen cadets in residence, about 5,000 people met in the grounds to welcome the Royal party. In the chapel there were some 1,300 people, and seats were provided for over 2,000 in enclosures to which the proceedings were relayed.

#### MARBLE AND OAK PANELS

The memorial takes the form of a new west end to the old chapel, which was built by the Royal Engineers in 1860. The whole interior has been renewed in white marble and oak panelling. On the marble and oak panels are inscribed the names of all those who had received their military training at Sandhurst and who made the supreme sacrifice in the Great War. Each regiment has its panel or panels, and every regiment in the British and Indian Armies is represented with the exception of the Royal Engineers and the Royal Artillery, their officers all being trained at the Royal Military Academy, Woolwich. Black marble has been used for the steps leading to the altar, and one of these was presented by the United States military academy at West Point.

#### HIGH EXAMPLE

In the course of his address, Dr. Lang said that there was still strife, complexity, and difficulty, the legacy of that terrible convulsion which devastated the whole world, but those whose names were commemorated around them were far removed from that turmoil. He hoped their names would ever be an inspiration to those who came to the Royal Military College. Certainly no one could read those long lists without a sense of deep emotion and a feeling that they had indeed set a high example. But there was rising a generation who knew nothing of that awful time. Men who knew and survived that terrible ordeal spoke little about it except perhaps to most intimate comrades.

Of one thing there could be no doubt, and that was that in the War period there was a strong tide of service and self-sacrifice throughout the whole country which lifted the nation to a higher level than had ever before or since been reached. To those whose names were inscribed in the chapel, it was also a call of duty, but those who came straight from school, the office, shop, or factory, long before there was any question of compulsory service, were moved by some deep instinct. They quietly rose and went, knowing that there might well be no return.

After the service in the chapel their Majesties made an inspection of some of the buildings, and then the King inspected the Battalion of Gentlemen Cadets. After the inspection the battalion marched past. At the end of the parade the cadets gave three rousing cheers for the King.

## CORONATION REVIEW OF THE FLEET ON THE SOLENT

London, May 19. The centre of interest in the Coronation festivities has shifted to the Solent, where hundreds of thousands of people are gathering along the coast of Hampshire and the Isle of Wight for to-morrow's review of the Fleet by His Majesty the King. This will be one of the greatest sea pageants in British history.

Their Majesties will arrive at Portsmouth to-night and will board the royal yacht, Victoria and Albert, which to-morrow will pass between eight lines of fighting ships from Spithead in the East to Cowes in the West. Over 150 warships will be assembled, including several representatives of foreign powers.

The British ships in the review comprises nine battleships, two battle-cruisers, fifteen cruisers, five aircraft carriers, 59 flotilla leaders and destroyers and 22 submarines. The greatest ship will be 40,000 ton H.M.S. Hood and the smallest vessel present will be Estonia's 600 ton submarine.

The Argentine sent the largest foreign warship to the review in 28,000 ton Moreno, a battleship of considerable power, while France's

26,000 ton battleship Dunkerque, is the newest and most powerful of the visiting craft.

Ten British admirals and six foreign will fly their flags.

There will be at least 50 big yachts in the pleasure fleet which will visit the Solent for this occasion.

Before leaving Buckingham Palace for Portsmouth, His Majesty received Prince Chichibu of Japan, who, with his Princess, is a distinguished delegate to the Coronation. Prince Chichibu presented the King with the Supreme Order of the Chrysanthemum and to the Queen presented the First Class Order of the Precious Crown, on behalf of the Emperor.

At the same time Prince Chichibu expressed the Emperor's ardent desire to maintain and strengthen the traditional ties of amity between the two countries.

His Majesty, in reply, said those words would find a ready echo in Britain. "It will be my constant endeavour to maintain and develop these friendly relations in every way within my power," he told Prince Chichibu.

## PLAGUE TOLL IN FUKIEN

Amoy, May 20. It is reported that plague is prevalent in the Wing Ting district of Fukien Province and that there have been over ten deaths. On the 18th and 19th instant cases were reported in the Lung Ngan, Tit Shek and Yeung Heung villages. In the Chuen Chow and Wai On districts, over sixty deaths have been reported.

## WAGES AND HOURS

Washington, May 19. President Franklin Roosevelt is expected to send a message to Congress next week dealing with the question of minimum wages, and maximum hours, and the elimination of child labour.

—Reuter.

## LLOYD'S AND THE WAR

The Spanish civil war has created a curious situation at Lloyd's, states the "Evening Standard."

During the last three weeks, insurance rates for ships bound to and from Spanish ports and flying the British flag have risen from 1 per cent to 5 per cent. Casualties and losses have been negligible. The business has therefore been profitable.

There is, however, a large insurance business for ships of other nationalities, more particularly for Spanish, Swedish and Norwegian ships carrying oranges from Spanish ports.

Many of these have been confiscated by General Franco's navy, and, although for these foreign ships the insurance rate is 25 per cent, losses have been heavy.

Despite General de Llanos' taunts the moral would seem to be that ships which have no navy to protect them run great risks and that those which have a strong navy behind them are comparatively immune from interference.

## LAWN TENNIS

BRITAIN CAN DEPEND  
UPON H. W. AUSTINGrand Determination To Face  
His Responsibilities

No leading lawn tennis player has ever shown, so early in the season, more determination to face coming responsibilities with fortitude than has H. W. Austin. In winning the open singles at the Melbury Club he made it abundantly clear that he is Britain's No. 1 man without any "possible, probable shadow of doubt," writes a Home correspondent.

After the third round, when he lost a set somewhat grudgingly to the Chinese K. C. H. Lo, whom he had previously beaten elsewhere, the largest number of games he lost was three, to N. Sharpe, in the final although his previous victims had included M. A. Young, R. J. Ritchie and C. M. Jones.

The secret of Austin's success lies mainly in his forcing shots off the floor, which are so powerful that he can hustle so stout a defender as Sharpe into the making of errors. They also, naturally, help him to dart up to the net when he wants to and there take more or less complete command of the situation.

Sharpe is a past master of the passing shot, but he did not get very many balls past Austin, whose wonderful anticipation helped him to chip in and cut them off, so that, although Sharpe played fine lawn tennis, it was not of much avail against the Austin brand of the

same article. His best effort from a scoring point of view was made in the two games which he won in the first set after Austin had led by 4-0. In the second set he won the fourth game, and fought hard for the next three to no purpose. I watched this match with real pleasure.

## MISS HARDWICK'S SUCCESS

Miss Hardwick is gradually achieving greater consistency, which is what she chiefly needs.

I doubt whether any other English woman possesses a finer array of strokes, and her win against Mrs. Peters, though foreshadowed, was gained against an opponent who has appreciably strengthened an already strong game.

The match can hardly be described as exhilarating from the playing point of view, because the conditions with drizzling rain falling called for caution rather than enterprise, and Miss Hardwick had to work very hard to win. The loser led by 4-1 in the first set, which Miss Hardwick won at 8-4, and had three chances for 6-5 in the second, which Miss Hardwick won at 7-5.

Miss J. Nicoll, a 14-year-old Harrow girl, did well to beat Miss N. Cole, by 6-1, 6-2, in the restricted women's singles final. She played very steadily.

PETEY SARRON BITTERLY  
INDIGNANT MANSURPRISE AT DISQUALIFICATION IN  
BOUT WITH CROWLEY

The most bitterly indignant man in England was Petey Sarron, world's feather-weight champion, who was disqualified for not hitting with the knuckle part of his glove in the ninth of his ten-round fight against Dave Crowley, the Londoner, at Harringay Arena writes a correspondent in the "Daily Mirror."

"I managed to get into the American's dressing-room after the fight was all over, and as he sat, his wiry little body thickly covered with black hair, I have never seen a more despondent figure."

"I can't believe it's happened," he told me. "I've had some two hundred fights in America, Australia, South Africa—all over the world, and I have never been disqualified before."

"In America they tell you to go in there and throw gloves. I was doing that and then—I'm disqualified. Why, even my opponent didn't know what had happened."

This followed another extraordinary finish in which Buddy Baer, younger brother of the world's champion, Max, had been awarded the fight against Jim Wilde, of Swansea, the referee stopping the fight with the Welshman on the floor for the fifth time.

## HAMMERED ROUND THE RING

It Max turned out to be a Teddy Baer, younger brother of the world's champion, Max, had been awarded the fight against Jim Wilde, of Swansea, the referee stopping the fight with the Welshman on the floor for the fifth time.

"I don't think I have ever seen anything quite so relentless as the enormous bronzed bulk of the American as he padded after Wilde seeking, ever seeking, to pin him in a corner."

Wilde, started quite jauntily, leaping in and out to score with left jabs to the face. He had about as much chance of stopping the advance of the 175 stone colossus in front of him with these punches as he would have of checking the Flying Scotsman.

After taking perhaps half a dozen of these punches with a gap-toothed, almost tolerant grin, Baer unleashed his first real punch—a left hook to the head.

## NO QUARTER GIVEN

The force of that one punch was phenomenal. It flung Wilde back into the ropes as though he had been a bag of flour. Before that, the Welshman had looked almost gay. Now a worried look crept into his deep-set eyes.

But Baer gave him no time to recover. He stuck out a left like a sawn-off telegraph pole and then crossed his right with terrific force to the jaw.

Wilde went down as fast and as hard as some of the shares on the Stock Exchange have recently. He fell forward on to his hands and knees, shaking his head frantically to try and clear it.

## TOUCH AND GO

As a matter of fact, it was touch-and-go whether he would

beat the count, but he just managed to reel to his feet in time, and although the timekeeper actually said "Ten," he was up right just a split second before that.

Again that inexorable advance by Baer until Wilde's retreat was checked by the ropes at his back. Vainly he tried to cover up, but the American's sledge-hammer punches penetrated his wavering guard, and he dropped for a further count of eight.

Once more he pulled himself to his feet, but Baer would not be denied and a third right thudded home to spreadeagle the Welshman on the canvas once more.

With blood dripping from his cut mouth, Wilde was a pitiable sight, and the bell, which came as the timekeeper reached "five," must have been a welcome sound indeed to him.

The Welshman managed to last out the second round, jabbing away gallantly but futilely with his left, but in the third he was dropped again from a glancing right cross to the jaw. He took a count of eight and it seemed that the end was not far off.

However, he came out for the fourth gamely enough, only to run into a barrage of hooks and uppercuts which slowly brought him to his knees. He was dazed but emphatically not "out," and he would almost certainly have got up again.

But there is such a thing as too much pluck, and the referee, rightly, in my opinion, decided that he had had enough, and waving Baer to his corner, awarded the fight to him.

CORINTHIAN  
FOOTBALL TEAM  
COMING HERE

According to latest reports the Islington Corinthian football team will visit Hong Kong during the coming Chinese New Year arriving here on February 3, 1938. They will come here direct from Singapore instead of first visiting Manila. The team will be representative of the best type of amateur football in England.

U.S. BASEBALL  
RESULTSPhillies Trounce  
Pittsburgh

New York, May 19.

Philadelphia accomplished what few others have been able to this season—beat Pittsburgh Pirates. Aronovitch was responsible. He hit a home run which broke a tie.

The Phillies hit eleven times and got five runs. The Pirates, with nine hits, scored four. Each had an error. Chicago defeated Brooklyn three to one, though each had six hits. There were no errors.

## AMERICAN LEAGUE

Washington again nosed out St. Louis Browns, nine to seven, in a heavy hitting game. Senators had eighteen safeties and Browns twelve. Each had an error.

Bridges won another game for Detroit, holding Philadelphia to five hits and no runs. The Tigers hit twelve, scored nine. Athletics had three errors.

The Cleveland-Boston game was postponed on account of rain.—Reuter.

'SURREY AMATEUR  
CHAMPIONSHIP

## Victory Of Mr. Stevenson

Mr. W. A. Stevenson, of The Queen's Own Cameron Highlanders, who has just returned on leave from Palestine (Camberley Heath), won the Surrey Amateur Championship at Worplesdon with a victory by two holes in the final round against Mr. J. Walker (Coombe Hill).

Mr. Stevenson lost the first two holes in the final, but he won the next five, and he turned with a lead of three holes. He went further ahead with a win, in 3, at the 12th, where his opponent pushed his drive into trees, and was four up with five to play, but Mr. Walker made a fine recovery to take the match to the home green. Mr. Walker played a brilliant recovery shot from a bunker at the 14th to win that hole in 4, and holed a seven-yards putt on the next green to get another hole-back. The 16th was halved in 3, and then Mr. Walker, holing a putt of 15ft., won the 17th in 3 to be only one down. At the home hole, however, his tee shot went out of bounds and Mr. Stevenson won by two holes. Mr. Stevenson was round in 73 strokes and Mr. Walker took 77.

## THE SEMI-FINAL ROUND

Mr. Walker, after being dormy six, was taken to the last hole before he survived from the semi-final round. He won five of the first seven holes against Mr. A. H. K. Hamilton (Wentworth) and was six up at the 12th, but his opponent played the next five holes in 3, 4, 4, 3, 4, and won them all. Mr. Walker secured a half at the home hole, however, and this gave him the match by a margin of one hole. The other semi-final tie was close throughout, although Mr. Stevenson generally led against Mr. F. L. Hird (Royal Wimbledon), whom he beat by one hole. Mr. Stevenson was two up after six holes and then followed four halves, including a division in 2 at the short 10th. Mr. Hird took the 11th hole, where his opponent was bunkered, squared at the 13th, and they were still level playing the short 16th. There Mr. Hird missed his tee shot and was over the green in 2. Mr. Stevenson won in 3 and the last two holes were halved.

PERRY MAKES £30,000  
IN A YEAR

Fred Perry, the British lawn tennis player, who is returning to England on May 14, following his United States tour, is believed to have made £30,000 in his first year as a professional.

In his series of matches with Vines, Perry received about £17,800 and Vines £8,700, while the promoters shared £12,000. Expenses were £11,000.

Perry also received payments for radio and film contracts and various advertising endorsements.

After touring Great Britain and playing in various European cities, Perry will return to the United States about the end of June to make films at Hollywood. Tours of South America and possibly Japan may be arranged later.

## PHILIPPINE MINING NEWS

Two Nielsen managed properties will be in full production within the next two months while two more properties will have mills before the end of the current year, officials of Nielsen and Company, Inc. report.

All equipment and machinery for the 300-ton mill now being installed by the Lepanto Consolidated Mining Company has been placed on the property. Nielsen officials stated. It is expected that the mill will be ready for test runs the latter part of next month. The mill will be in operation by the first of July, the report stated.

Work on Hong Kong Mines, another Nielsen managed property, is progressing steadily and it is expected that the mill will be in operation within the next two months. All the retaining walls for the mill benches have been completed and the ore bins are nearly finished. Staff houses, bodegas and all other buildings necessary for the operation of the mine are completed.

Machinery and equipment for the mill is now on the property and the erection of the plant will be in full swing before the end of this month.

Nielsen officials state that the Crown lease on their property has been extended to include the adjoining property which has been found to contain good values in lead and silver ore.

A staff engineer's report from Paracale Gold states that the shaft on the Fortuna claim has been sunk to a depth of 135 feet. Another shaft is down 80 feet on the Big vein area. Crosscuts will be started from the 150 level of the above shafts in order to pick up the gold bearing vein which runs through these claims. All development work at Paracale Gold is being pushed ahead as rapidly as possible.

Work at Paracale-Gumaus, another Nielsen managed property, is

NEWS FROM THE  
WATERFRONTFreight And Asiatic  
Passenger Returns.

(BY LONGSHOREMAN)

During the 24 hours ended at  
9.00 a.m. yesterday, the freight  
returns, received from the Har-  
bour Office, showed a very high  
tonnage movement, a good pro-  
portion being made up by Japanese  
ships.

The total tonnage of general  
cargo carried by vessels to the  
Colony was 21,503 tons, with  
British steamers carrying 6,855  
tons. Through cargo for ports  
beyond the Colony amounted to  
45,634 tons, of which 3,002 tons  
were carried by British steamers.

Asiatic deck passengers entering  
the Colony during the twenty-four  
hours ended at 9 a.m. yesterday  
were 499, of which 488 were  
from British steamers.

There were altogether fifteen  
arrivals, of which four were of  
British registry, the remainder  
being of other nationalities, while  
of the 22 departures, six were  
British ships. Particulars as fol-  
lows:—

Nationality	Ships	Tonnage
British	4	9,657
German	1	7,602
Danish	1	8,500
Norwegian	2	9,386
Japanese	8	30,382
Chinese	1	1,850
Total	15	87,137

## HAINAN ISLAND EXPLOITATION

### Mr. Cheng To Submit Report

Nanking, May 20. After an inspection of the industrial condition in Kwangtung and Hainan Island, Mr. Cheng Tien-koo, Vice-Minister of Industries of the National Government, has returned to Nanking. Mr. Cheng's report on Hainan will be the basis of government exploitation of the island.

The Central Authorities will have to appropriate money for the economic development of Hainan Island. Owing to a heavy deficit, the Kwangtung Provincial Government has no money available for insular projects.

It is reported that Mr. T. V. Soong, Chairman of the Board of Directors of the Bank of China, and Mr. Sun Fo, President of the Legislative Yuan, will pay a visit to Hainan, but they will first hear from Vice-Minister Cheng before they sail for the South.

The fertile soil of Hainan Island is beyond doubt, for things grow there much quicker and more abundant than those on the mainland. A Hainan merchant said that a telegraph pole grows branches and leaves owing to the rich condition of the earth.—*Union News.*

## FANTASTIC SOCIETY DISCOVERED

### Activities Deemed Contrary To Nature

Hankow, May 20. A fantastic society composed of males and females who swear to uphold virginity for all their lives was discovered at Sung Chi in Western Hupeh. The cult was headed by Li Kuo-po, 30, who is suspected to be a quack.

The cult drew attention when its members recently staged a weird and grotesque procession. Mr. Li named his organization as "Back to the Fundamentals Religion." Members of this sect are required to beg for vegetarian food and worship the buddhas.

About 200 persons have joined this colony. Certain chapters are also formed in Hunan province.

The garrison in Western Hupeh are investigating into this queer organization whose activities are deemed contrary to nature.—*Union News.*

## MANCHUKUO BORDER VIOLATION

### Alleged Survey By Four Mounted Men

Changchun, May 20. Serious concern was expressed to-day by the Manchukuo authorities about the alleged violation of the Manchukuo border by Soviets despite repeated protests.

It was reported that four mounted O.G.P.U. men crossed the Manchukuo frontier two kilometres north-east of Tungning on the southeastern boundary of Pinkiang Province about 6 o'clock Tuesday afternoon.

The Soviets are said to have surveyed Manchukuo territory. The invaders later returned to their own territory.

The successive occurrence of inauspicious events in the border districts is liable to have serious effects on the Soviet-Manchukuo situation. It is feared.—*Union News.*

## SZECHUEN RUMOURS

Shanghai, May 20. Owing to the big crop of rumours concerning the situation in Szechuen Province, and the anxiety and uneasiness of the inhabitants of Szechuen Province, who are living in other provinces, Mr. Liu Hsiang-shun will fly to Shanghai to interview Dr. Wang Chung-hui, Minister of Foreign Affairs to-day.

From Shanghai Mr. Liu will fly to Nanking to report to the Central Government.—*Chinese Evening Press.*

## BOILER EXPLOSION IN SHANGHAI

Shanghai, May 19. At 11 o'clock this morning, the steam boiler of the Mow Cheong Establishment in Whampoa Road exploded, killing and injuring over seventy of the employees.—*Chinese Evening Press.*

## HOPEI-CHAHAR AND NANKING

### Connections To Be Strengthened

Peiping, May 20.

Connections between the Hopei-Chahar Political Council and the Central Government, are expected to be distinctly strengthened soon through the establishment of a special commission to represent the northern regime in Nanking. The project was revealed to-day. The new organ will be charged with keeping closer contact between the two bodies.

The office will be managed by Mr. Ko Ting-yuan, Secretary-General of the Political Council, and General Li Shih-chun, one of the leaders of the 29th Army.

Although the plan has not yet been formally announced by the Chinese, numerous moves have been made recently to co-ordinate more closely the work of the local regime with the wishes of the National Government. The decision to establish an office in Nanking is understood to have resulted from recent negotiations between Peiping and the capital.—*Union News.*

## NEW RAILWAY PROJECT

Shanghai, May 20. Construction of a new railway connecting Hengyang, Hunan Province, on the Canton-Hankow Railway, and Kweilin, capital of Kwangsi Province, will be started on October 10, the national holiday commemorating the establishment of the Chinese Republic. It was reliably learned to-day.

It is reported that the survey of the projected line will be completed by the end of September. The line will cover about 400 kilometres through the Siang River Valley, linking Chiyang, Lingling, Chuan-hsien and Hsiang-an.—*Union News.*

## FLYING BOATS TO VISIT LISBON

London, May 19. The Air Ministry announces that four Singapore flying boats of Number 209 Flyingboat Squadron, will leave Felixstowe to-morrow for a training cruise of the Mediterranean. They will fly to Malta via Bourtin and Beere, arriving at Malta on May 22. The return journey commences on May 26 and includes a short stay at Gibraltar and Lisbon. During the stay at Lisbon visits will be paid to Sebutal and Aveiro.—*British Wireless.*

## NEW CABINET MEETS

Valencia, May 20. Reporting to the first meeting of the new Cabinet, the Prime Minister, Senor Negrin, emphasised last night that during the past four days no elements in Spain had proved recalcitrant. All classes were uniting in their effort to press forward to victory.

According to the Spanish Press Agency, Senor Negrin has received numerous telegrams of support from many chiefs of public security, political and trade union organisations, and leaders of the people's army, all offering their co-operation with the Government. It is announced the Cortes will meet early in June.—*Reuter.*

## CORONATION NAVAL REVIEW

round the walls. "A very interesting and really excellent painting" was the Queen's comment when she came out.—*Reuter.*

### FILM RECORD

London, May 20. To-day's Naval Review is being recorded in detail by film companies for which special facilities have been given by the Admiralty. Eleven British warships will have film units aboard. One unit will be in the Royal yacht and another will film the event from the Horses and Port.

These official arrangements will be supplemented by pictures from among shore crowds and by air photographs.—*British Wireless.*

## ARTISTIC TREAT FOR COLONY?

(Continued from Page 1.)

Another famous artist who toured with Mr. Longden was the Australian Prima Donna, Florence Austral and her husband John Amadio the flautist.

THE WHITE PEACOCK. Now Mr. Longden is impressario for a very new and wonderful dancer who is known as La Merl. Although very young she is already world-famous, and is considered to be unique in a line of her own. She is at present dancing in Java, and after that has bookings in Shanghai and Japan, so Mr. Longden hopes she will be able to spare time for a dance display here on her way up North. Even in far away Hong Kong I think we have heard of her famous dance, "The White Peacock."

KEEN ON GOLF! Discussing the personalities of some of the famous people he knows, Mr. Longden said that John Brownlee is a very typical Britisher, whose one idea when he gets to a new place is, not as one would imagine to have a look at the ball where he is to sing, but to find out the nearest golf-links!

Florence Austral he said, is extremely domesticated. When she returns from a concert where her lovely voice has stirred the hearts of a vast audience she likes nothing so well as to get busy with her chafing-dish, and cook something hot and delicious for a little supper for her friends.

SHORT STAY HERE. La Merl's quite different to this. She is not in the least domesticated. But strange to relate her husband is just the opposite, and is a very handy-man in the home. He is a great artist too though, and arranges her dances. He it was who discovered the young Hindu lad who dances with La Merl, and who, it is said, will one day rival Nijinsky.

Mr. Longden is only staying one week in Hong Kong this time and while here he hopes to get in touch with the Boy Scout movement. He is very keen on scouting and when in Paris he was Rover Leader for the British Scouts.

## NEW CHINESE AMBASSADOR TO UNITED STATES

San Francisco, May 20. Dr. C. T. Wang, new Chinese Ambassador to the United States, has arrived here en route to Washington.—*Reuter.*
